June 2025 – Aug. 2025

- Designed and optimized LLM workflows, covering deployment, performance tuning and AI integration.
- Built responsive web UIs in HTML/CSS/TypeScript and stable third-party API/hardware integrations.

LEADERSHIP EXPERIENCE

SCMUN 2026, See Change Education

City University of Hong Kong

Operations Event Manager

Summer 2026

Ran end-to-end operations for a 160+ delegate Model United Nations conference: coordinated vendors and venue logistics with CityU staff; led 10+ staff and 17 student helpers as the on-site point of contact.

PROJECTS

- **Theme Management** ([GitHub Link](#)): A dual-portal system where admins manage (add/delete) database content via a GUI without accessing MongoDB directly, while users browse and select themes fetched directly from the database.
- **DotAI Crypto Web Application** ([GitHub Link](#)): Crypto web app where users create blockchain wallets, link existing addresses, make real-time transactions and mint Bifrost tokens.
- **Hospital Report Structuring with AI** ([GitHub Link](#)): Document extraction tool using Cohere's LLMs to automatically identify and format hospital reports by 5-digit patient ID.

HONORS & AWARDS

- **CityU ESG X Fintech Hackathon**: Finalist among 40+ inter-university teams; fintech solution for ESG challenges.
