852Healthkare

Hong Kong SAR

Sep 2025- Present

- *Full Stack Developer (Part-Time)*
 - Designed and implemented a multi-agent healthcare chatbot capable of intent analysis, medical report interpretation and linked it to various submodules capable of answering relevant questions and auto perform tasks.
 - Developed the core doctor-patient communication ecosystem with secure live chat and video consultations, integrated with real-time queue management and digital prescription workflows.
 - Led the end-to-end development of both the Patient App and Clinic Portal including complex Booking flows, different submodules like Diet and Workout , Vitals tracking, and Electronic Medical Records (EMR) as well as code cleanup initiatives.

Digital Domain Holdings Limited

Hong Kong SAR

June 2025 – August 2025

- *Systems Integration Engineer (On-Site)*
 - Design and optimize Large Language Model (LLM) workflows, supporting deployment, performance tuning, and AI integration for enhanced system functionality.
 - Develop responsive web interfaces using HTML/CSS/JavaScript/TypeScript and facilitate third-party API/hardware integrations, ensuring compatibility and system stability.

PROJECTS

- **Theme Management** ([GitHub Link](#)): A dual-portal system: Admins can manage (add/delete) database content via a GUI without accessing MongoDB directly, while users browse and select themes from the available data directly fetched from the database.
- **DotAI Crypto Web Application** ([GitHub Link](#)): Developed a comprehensive crypto web application that allows users to create their own blockchain wallets, link existing wallet addresses, and facilitate real-time transactions. The application also enables users to mint Bifrost tokens, enhancing their cryptocurrency experience.
- **Hospital Report Structuring with AI** ([GitHub Link](#)): Developed a structured document extraction tool using Cohere's AI, integrating LLMs enabling the automated identification and formatting of hospital reports based on 5-digit patient IDs for improved data organization and accessibility.

HONORS & AWARDS

- **CityU International Students Full Tuition Scholarship**: Received 100% Full Tuition Scholarship for International Students worth 170,000\$ HKD per year renewable for a period of 4 years which is given to students with academic excellence.
- **CityU ESG X Fintech Hackathon**: Finalist in the CityU ESG X Fintech Hackathon that emphasizes innovative solutions to environmental, social, and governance (ESG) challenges through the lens of fintech .
- **SHE Scholarship for Higher Education by INSPIRE**: Got selected for the SHE Scholarship of higher education worth INR 4,00,000 for my duration of study for being within the top 1% in Indian Board ISC examination.
